WORK EXPERIENCE

CT Nova — Head of Product (Founding Team)

2025 – Present

CT Nova's offering of Microsoft's Community Training Platform that helps organizations deliver transformative adaptive training.

- Defined product vision and led development of CT Nova's GenAI learning platform from concept to global launch, enabling adoption by existing Microsoft enterprise and government clients, including Fortune 500 companies: EY, Grab.
- Led end-to-end client onboarding, delivering \$1M ARR and \$700K profit with 15+ clients for 20 Million users.
- Hired and led a 10-member cross-functional team to translate product vision into high-impact execution, accelerating release cycles by 33%, powering 2.3 Million active monthly users across 15 countries.
- Led a team of 6 Stanford grads as a sponsor for the MS&E271 Course to develop CT Nova's GTM Strategy for the year 2026.

NurturX (Acquired) — Founder

2024 – 2025

Mentoring and upskilling platform to revolutionize tech education and employability for 250M+ youth in India.

- Built NurturX's GenAI platform, recruiting 37 part-time Google mentors and developing adaptive learning tools, mentorship frameworks, and AI-powered assessments adopted by 15K paid learners.
- Integrated NurturX's GenAI analytics into Disha AI's learning engine, expediting its personalization roadmap by 12 months.

MICROSOFT RESEARCH (MSR) — Technical Program Manager

2022 – 2024

MSR enables global communities through research, open-source, collaborations with academia, government, and startups.

- Launched Shiksha Copilot, a multilingual GenAI assistant for 24,000+ schools for 1.6M+ students, partnering with the Govt. of Karnataka and Telangana states, improving teacher productivity and shaping future AI-in-education pilots; endorsed by Indian Media, International Media. Commended by Satya Nadella (MSFT CEO) and Bill Gates (MSFT Cofounder) in-person.
- Led MSR's Research Fellows (RF) and Internships programs, partnering with Research, Engineering, Design, Privacy, HR and Compliance teams supporting 60+ RFs and 50+ Interns annually. Created a no-cost nomination system during a budget freeze that increased talent outreach by 12 times and made selection more competitive (1 in 750 for RFs, 1 in 3,500 for Interns), improving the match and quality of talent for 30+ projects.
- Selected as a member of Diversity and Inclusion Board and led initiatives to increase women's representation from 8% to 26% through targeted outreach and mentorship to Women-in-Tech communities, achieving MSR's best diversity ratio.

GOOGLE — Software Engineer 2, Machine Learning

2018 – 2021

Google Workspace: Core search experiences (Gmail and Drive)

- Improved Gmail Search's autocomplete MRR (Mean Reciprocal Rank) by 17% by optimizing ranking features, enabling over 1 Billion users avoid performing full searches, thereby saving Google \$37M in annual compute costs.
- Enhanced Drive Search's document retrieval relevance by refining query-intent classification with personal navboost signals derived from users' refinding behaviour, achieving 15x adoption growth for over 1 Billion users.
- Recognized with 5 awards and 17 bonuses for significant product contributions and for proactively creating dedicated programs to improve hiring and mentorship. **DEI Efforts:** my initiatives helped hire 4.3% of tech Googlers in India by 2021.

MICROSOFT RESEARCH (MSR) — Research Intern

2017 – 2018

- Developed vision models to monitor driver alertness in low lighting using calibrated visible-thermal images and deep landmark detection networks resulting in a [paper](#) at UBICOMP (Core A*) 2020, a US patent: [US10867195B2](#)
- Implemented across 28K+ automated driving tests and endorsed in Microsoft CEO's [Keynote](#) and tech publications globally.
- Built a TB-scale Unreal Engine simulation for accident-prone driving scenarios to replace costly real-world data collection.

EDUCATION

STANFORD GRADUATE SCHOOL OF BUSINESS

Stanford, CA

Stanford Ignite, full-time certificate program (The only selected candidate from India)

2024

- Executed a venture project: BRIGHT – Bridging Research, Innovation for Global Health & Training, managing a global team of 6, to bridge research gap between high and low income countries, successfully pitching it to GSB faculty and investors.
- Recognized as the top performer in the negotiations class, enabling a mid-senior executive to secure a \$113K offer increase.

IIIT Delhi (All India Rank 86)

Delhi, India

Bachelor's in Computer Science and Engineering (with honors, top 10%, GPA: 8.11)

2013 – 2017

- Dean's List; Best TA Award for 'Data Structures and Algorithms', 'Competitive Programming' nominated by 200+ students.
- Devised a face detection paradigm that reduced false positives by 90%, earning the Best poster Award in Research Showcase 2017; published in [BTAS'16](#), New York and [FG'19](#), France (CORE C, first author, only Indian undergrad presenter).

LEADERSHIP AND EXTRACURRICULARS

- Authored 3 international publications, 1 US patent, and a thesis; [cited 100](#) times by leading publications in research.
- **Visiting Professor, IIT Jodhpur:** Designed and delivered a 1-credit course 'Special Topics in Computer Science' to 35 Grad Students, fostering advanced understanding of emerging CS topics in 2021.
- Mentored 1000+ women in STEM pro-bono across 60+ colleges to improve diversity representation in tech, resulting in 400+ job offers worth \$18M annually from Amazon, Google, and Microsoft (a few heartfelt [testimonials](#)).
- **Rails Girls Summer of Code:** Coached Team [276linesofcode](#), for RGSOC, youngest sponsored team worldwide in 2017.
- World Chess Federation (FIDE) International Chess Rating – [1681](#). Played against people from 180+ countries online.
- Founded Chess Clubs at IIIT Delhi, Google India and Microsoft Research India; organized 75+ events for 10,000+ people.

PATENTS AND PUBLICATIONS

[GOOGLE SCHOLAR](#): 100 CITATIONS

- *"Systems and Methods for Monitoring Driver State"* [Microsoft 2020] [Patent No: US10867195B2] [[Issued](#)] [[pdf](#)]
Authors: V. Padmanabhan, A. Nambi, I. Mehta, S. Bannur, **S. Gupta**
- *"InSight: Monitoring Driver's State in Low-Light Using Smartphones"* [UBICOMP 2020, Virtual] [[Link](#)] [[video](#)] [[pdf](#)]
Authors: I. Janveja, A. Nambi, S. Bannur, **S. Gupta**, V. Padmanabhan
- *"FaceSurv: A Dataset for Face Detection and Recognition across Spectra and Resolutions"* [FG 2019, France] [[Link](#)] [[pdf](#)]
Authors: **S. Gupta**, N. Gupta, S. Ghosh, M. Singh, S. Nagpal, M. Vatsa, R. Singh
- *"Video Face Database for Cross-Spectral Cross-Distance Face Recognition"* [BTAS 2016, USA] [[Link](#)] [[pdf](#)]
Authors: M. Singh, S. Nagpal, N. Gupta, **S. Gupta**, S. Ghosh, R. Singh, M. Vatsa
